It is recommended that this material be stored in a cool, well-ventilated area.

NOTE: Health studies have shown that exposure to chemicals pose potential health risks which may vary from person to person. Therefore, exposure to liquids, vapors, mists, and/or fumes should be minimized.

Section VIII - Exposure Controls and Personal Protection

EYES: In general, the use of safety glasses is recommended. If the material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended.

RESPIRATORY: In well ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of NIOSH-approved respiratory protection may be required.

EQUIPMENT & APPAREL: The use of chemical resistant gloves is recommended. Acceptable industrial hygienic practices should be maintained.

VENTILATION: Provide adequate ventilation. Use local exhaust fan if necessary.

| Section IX - Physical & Chemical Properties | | | | |
|--|-------------------|---------------------------------------|--|--|
| APPEARANCE: Viscous lotion, free of foreign matter | ODOR: | Characteristic to fragrance | | |
| SPECIFIC GRAVITY: 0.97-1.00 @ 25'C | pH: | 7.2 to 7.8 | | |
| BOILING POINT: NF | WATER N | WATER MISCIBILITY: SLIGHTLY | | |
| MELTING POINT: NF | | · · · · · · · · · · · · · · · · · · · | | |
| Section X - St | ability and React | ivity ` | | |

STABILITY: Presents no significant reactivity hazard. Normally stable even at elevated temperatures and pressures. Not pyrophoric nor reactive with water. Does not undergo explosive decomposition, is shock stable, and is not an oxygen donor. Does not form explosive mixtures with other organic materials. Will not undergo hazardous exothermic polymerization.

INCOMPATIBILITY (MATERIALS TO AVOID): Avoid strong oxidizing agents.

| Section XI - Toxicological Information | <u> </u> |
|---|--------------|
| Acute Toxicological Data: None Known | • |
| Carcinogenicity: No data available | |
| Neurotoxicity: No data available | |
| Reproductive effects: No data available | |
| Epidemiology: May cause slight rash or irritation upon long term exposure. | |
| Section XII - Ecological Information | |
| Ecotoxicity: No data available. | |
| Environmental Fate: No data available. | ~ |
| Physical/Chemical: Product is known to be stable under normal conditions. | |
| Please refer to Section IX for product data. | |
| Section XIII - State, Federal and International Regulatory | Requirements |
| DOT Description: This material is not regulated by the Division of Transportation | |
| Proper Shipping Name: See product description. | |
| Applicable Labeling Regulations: 21 CFR 201 | |
| DOT/EPA Hazard Class: Not Applicable | |
| EPA-SARA Title III Section 13: Toxic Chemical: Not Applicable | |
